SMART  
LIVING**

# New kitchen faucets for a **perfect and contemporary water experience**

As a renowned sanitary fitting specialist, preferred by professionals, we are progressing with over a century of expertise in crafting beautiful, innovative, and high-performance products centered around water. With this valuable legacy of knowledge and our dedicated efforts to uphold water as an essential, we aim to transform any contemporary kitchen into a truly special space of togetherness - your living kitchen.

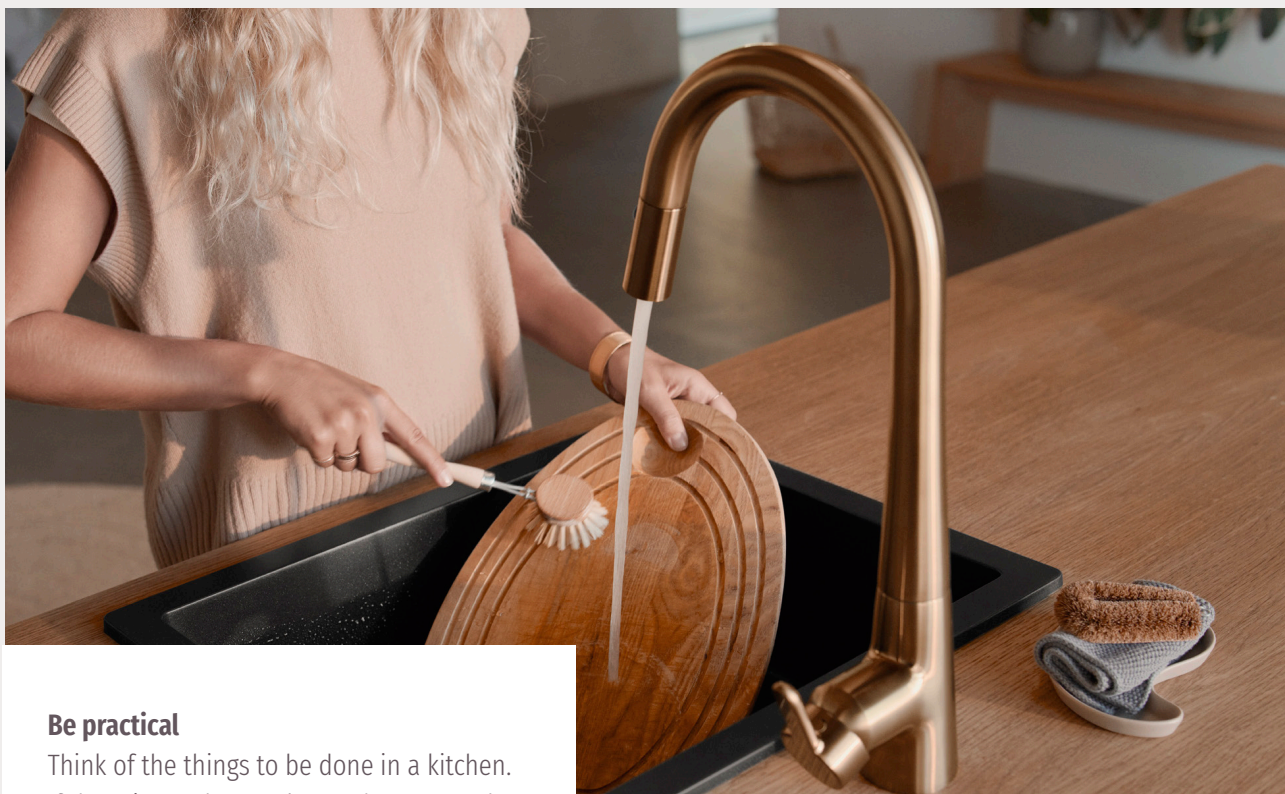

Here, you can consistently relish the joy of preparing food, cooking, gathering, and, above all, living. From dawn to dusk, every single day. Savouring water from faucets that are far more than decorative furnishing objects just completing the sink.

# Together we will help our customers finding the right kitchen faucet

Our easy to apply guide to the ideal faucet meeting exactly the focused need.  
To elevate a real living kitchen to interior perfection.

## **Be practical**

Think of the things to be done in a kitchen.  
If there is need to work or to be prepared:  
we luckily offer tools, not toys.

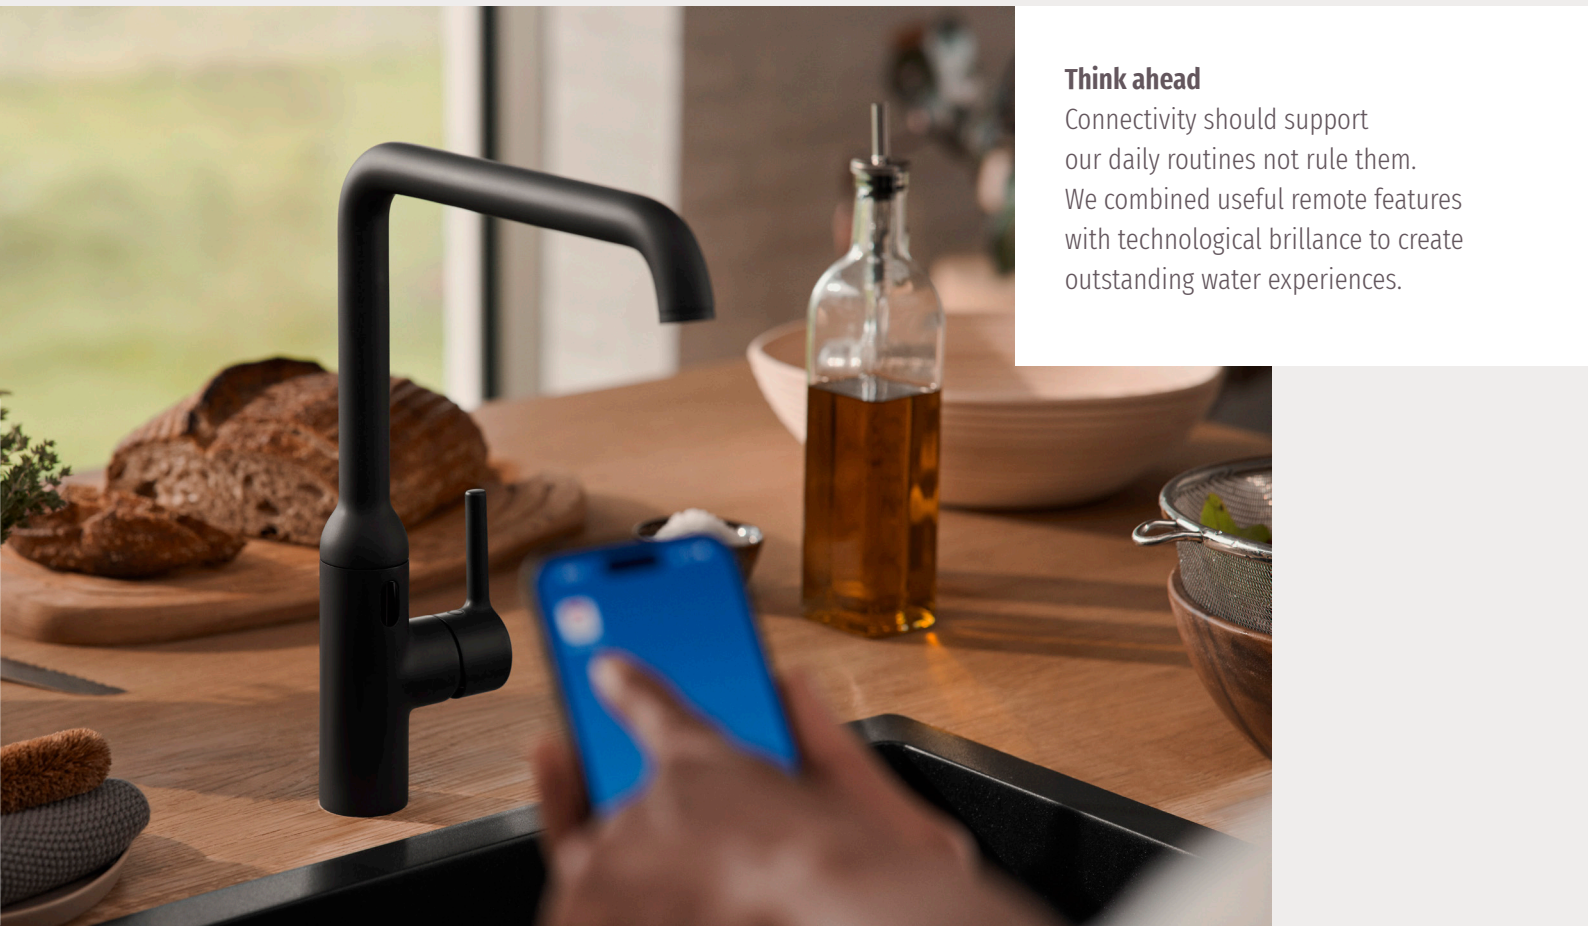

## **Invest in safety**

Water is precious  
and so is our health.  
To preserve this essential  
food you can rely on the  
quality of our inhouse  
produced components  
and certified materials  
on expert level.

### **Think of beauty**

Think of beauty. A kitchen mostly is subject to a big invest and a high-quality faucet will be a companion for a long time. It is always a good decision to prefer elegance and style rather than fleeting trends.

### **Think ahead**

Connectivity should support our daily routines not rule them. We combined useful remote features with technological brilliance to create outstanding water experiences.

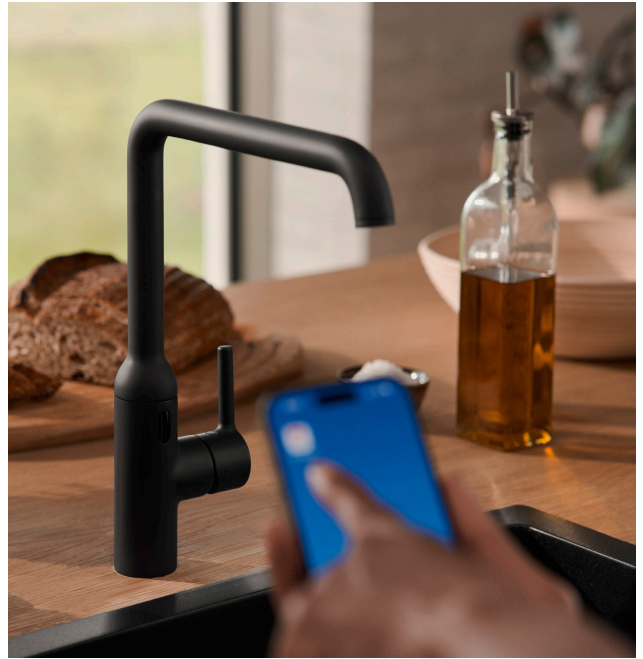

# Preferring added value is **the best recipe to get the right focus**

Our novelties are designed to bring added value to the living kitchen.  
With this philisophy we foster the right solution instead of giving just choices.

## Unique hybrid interface

- manual and touchless operation
- hygienic and comfortable
- sustainable resource consumption
- premixed water by a thermostat
- unique hybrid unit
- customizable functionality with the 360 App

The hybrid version is a masterpiece combination of touchless comfort, hygiene, app controlled connectivity and thermostatic safety.

# How to make **good things even better**

Proven expertise and reliable experience are always a good starting point for innovation. Discover our new faucets for contemporary kitchens as a valuable enrichment of both well-known and popular product families.

# New colours for your living kitchen. From dawn to dusk – every single day.

The **Brushed Bronze** is a rich tone with a very elegant brush. It is like the captured warmth as an essence of an endless summer and fits dark wood and subdued colour palettes.

A crisp morning radiates that subtle energy to prepare you for whatever the day brings. **The Brushed Steel** is a perfect surface in a modern kitchen exuding vitality and motivation.

**The Chrome.**

Reflecting perfection and mirroring personal style at any time and in any kitchen environment.

When a long day ends, the rituals of togetherness unfold and we all gather in the living kitchen.

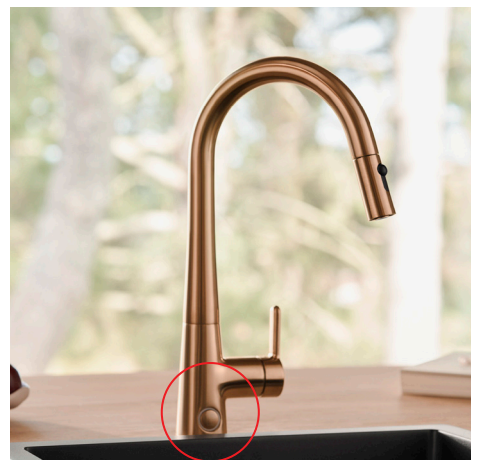

**The Matt Black** is the perfect colour expressing individuality and understatement in valuable environments.

# Our **recommendations to enjoy** your living kitchen

Water where and how you need with the pull-out-spout, silent textile hoses and different spray types. From gentle washing to powerful rinsing and with all the operating space you require.

Our swivel spouts offer all the comfort to reach any area of the sink.

Saying yes to Water Smart Living is saying yes to faucets and showers that will reduce our water and energy consumption. It's saying yes to SMART technology that will make our homes, schools, hospitals and public spaces safer, for the benefit of our health. It's saying yes to the choices that will enable us to create positive change for people – and the environment.

That's why we're saying yes to Water Smart Living.
