HANSA AURELIA

Elevating **your moments**

There is a place, a personal retreat, where you can experience mindful moments of well-being. Inspired by nature and its essential beauty, the precious moments of feeling water in its most beautiful manifestation are elevated in an extraordinary harmony of design and function.

Shower moments full of **natural harmony**

The lotus flower, which thrives in pristine and rich nature, is a magical symbol of natural sophistication in its combination of breathtaking beauty and brilliant function. The flower's elegant proportions, the simple grace of its petals, and the perfect shape of the water droplets that roll off its leaves are true inspirations for creating shower moments of a new kind.

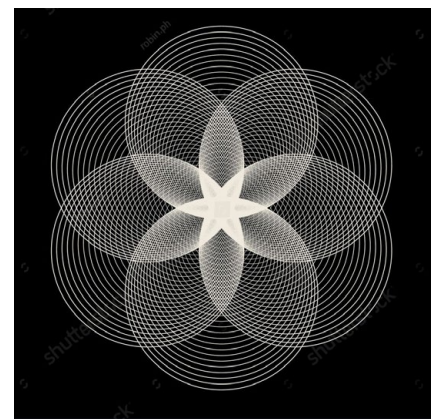

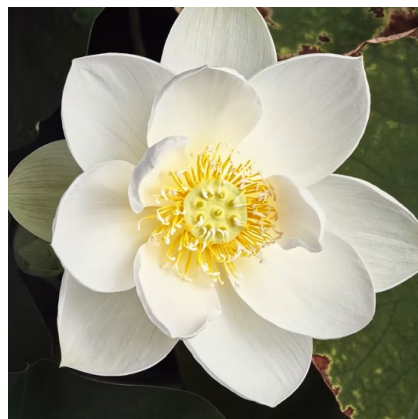

The design of both shower heads creates distinct water flow zones, resulting in a unique spray pattern resembling a lotus flower. Dense and full at the centre, the water flows outward in petal shapes to gently envelop the entire body.

The elegant droplet-shaped design of the hand shower is inspired by nature.

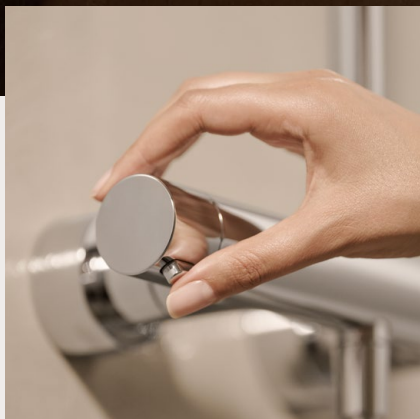

The overhead shower is significantly larger than standard. You can choose between a round (300 mm diameter) and square (250 x 250 mm) design.

The right products to elevate any shower area

Whether installed in a bathtub area or shower area, traditional or modern, there's always a way to enjoy your perfect **HANSAAURELIA** moment.

Safety lock

The button for the 38°C safety lock is both ergonomic and unobtrusive. Reduced water consumption with Eco-flow.

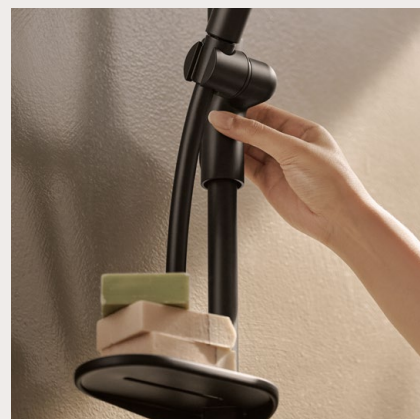

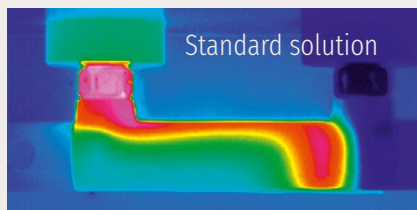

THERMO COOL

THERMO COOL design keeps the thermostat's surface from overheating – a much safer option than traditional thermostat builds.

Easy handling

Clever design features ensure optimal placement and easy usability in all situations.

- The unique lotus flower spray pattern gently covers the entire body
- 110° swivel range for optimal positioning
- 3-spray hand shower with a push-button for simple usability
- Easy operated one hand handshower holder for easy adjustment
- Twist-free shower hose for durable and hassle-free use
- Cuttable shower pipe for perfect height alignment in existing installations
- Slim and durable thermostat – 40 mm diameter and made from high-quality brass alloy
- Safe and responsible choice due to THERMO COOL design, 38°C safety lock, and Eco-flow limiter

The new HANSA AURELIA is available in four refined colours:

- Warm Brushed Bronze
- Energising Brushed Steel
- Infinite Matt Black
- Perfect Chrome

Appeals to all senses

Durable and long-lasting

Easy to clean

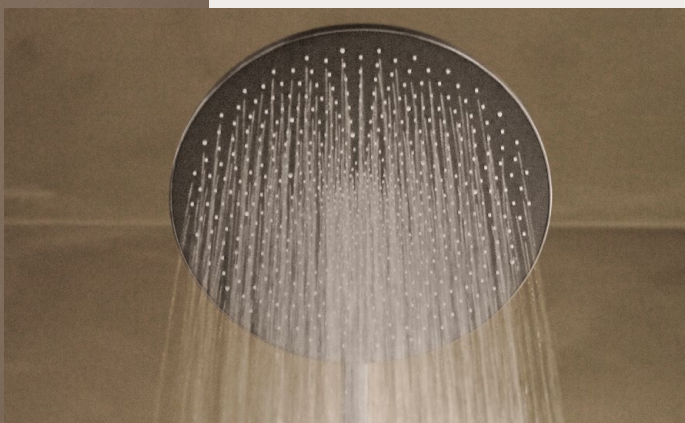

High in quality and consistency

The indulgence **you** deserve

The complete wall-mounted HANSA**AURELIA** shower system features an overhead shower, a hand shower, and a thermostat. HANSA**AURELIA** is a modern interpretation of a classic build and suits even the most refined bathroom designs, offering exceptional functionality.

Relaxing

The Relaxing spray utilises the full lotus flower spray pattern to create a soothing experience.

Intense

The Intense spray is revitalising and ideal for rinsing hair.

Pulse

The Pulse spray is focused and energetic – perfect for water treatments.

Rich experiences

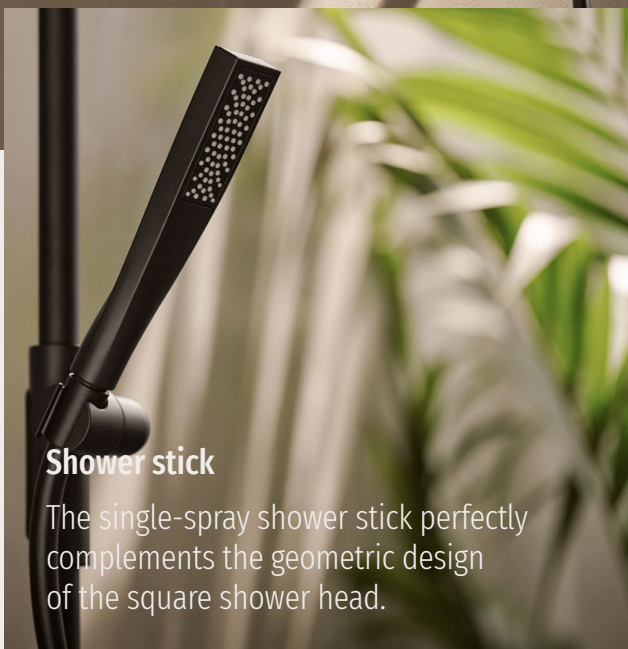

The overhead shower delivers an authentic rainforest experience, while the hand shower precisely directs water where and how you need it.

Adaptive design

Whether your bathroom design is contemporary or more architecturally oriented, the new HANSA**AURELIA** shower range offers optimal scalability.

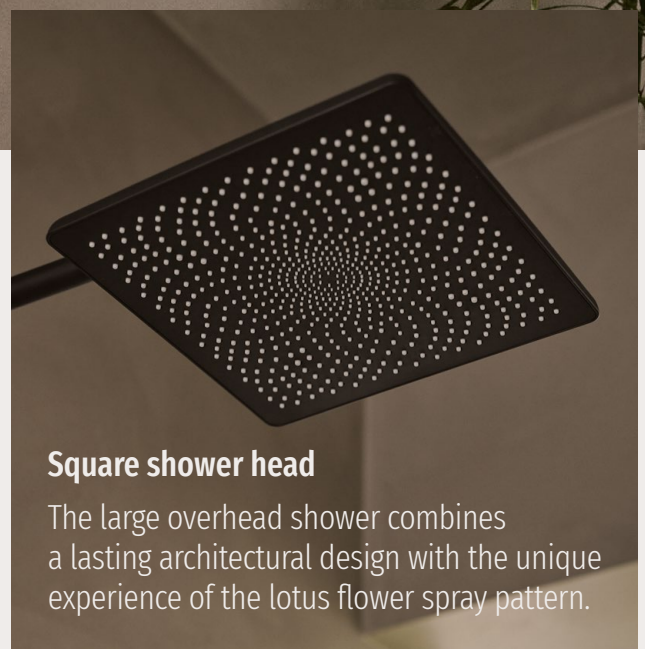

Shower rail

The shower rail has a refined look and offers practical features. It is elegant and always easy to operate.

Shower stick

The single-spray shower stick perfectly complements the geometric design of the square shower head.

Square shower head

The large overhead shower combines a lasting architectural design with the unique experience of the lotus flower spray pattern.

Shower system

A striking appearance: HANSA **AURELIA** shower system in matt black, equipped with a square overhead shower and a shower stick.

HANSAPRISMA thermostat

The thermostat's THERMO COOL design prevents the surface from overheating. The new and slim thermostat is also individually available for bathtubs and showers within the HANSAPRISMA family.
